SUMMARY

Computer Science undergraduate with an 8.37 CGPA and hands-on experience in developing responsive web applications using JavaScript, TypeScript, React.js, Next.js, Node.js, MySQL, and REST APIs. Developed 20+ responsive pages during a Software Developer Internship and built e-commerce platforms, dashboards, and API-integrated applications through internship and academic projects.

EDUCATION

Sathyabama Institute of Science and Technology *Chennai, Tamil Nadu*
Bachelor of Engineering in Computer Science and Engineering – Current CGPA: 8.37 *2023-2027*
Narayana Junior College *Kakinada, Andhra Pradesh*
Board of Intermediate Education – Percentage: 90.1 *2021-2023*

TECHNICAL SKILLS

Languages: Python, JavaScript, SQL, HTML5, CSS3
Frontend: React.js, Tailwind CSS
Backend: Node.js, REST APIs
Machine Learning: NumPy, Pandas, PyTorch
Databases: MySQL
Tools: GitHub, Postman, Vercel, VS Code, Jupyter Notebook
Soft Skills: Problem Solving, Analytical Thinking, Team Collaboration, Adaptability, Communication

EXPERIENCE

Software Developer Intern | Robohatch *Jan 2026 – May 2026*

- Developed and maintained 20+ responsive web pages for a production e-commerce platform using React.js, and Tailwind CSS.
- Implemented core e-commerce workflows including product catalogue, product details, custom design upload, shopping cart, and checkout.
- Integrated and tested REST APIs using Postman and resolved UI and integration issues across desktop, tablet, and mobile devices. Used GitHub for version control and collaborative development.

PROJECTS

SMART RENTAL PLATFORM | Rental Management | *2026*

- Developed a rental management platform with 5 dashboards for equipment tracking, forecasting, analytics, alerts, and overall rental management.
- Built and integrated REST APIs to power dashboard analytics and operational workflows, with responsive interfaces for presenting API-driven rental insights.
- Implemented Random Forest and some models for prediction and recommendation tasks, achieving approximately 82% accuracy.

AUTISM SCREENING PLATFORM | AI-Assisted Healthcare Application | *2026*

- Developed an AI-assisted web application with 4 core modules: user authentication, dashboard, image capture, and video upload modules.
- Integrated an AI – based screening service through APIs to process user inputs and support the application's automated screening workflow.
- Designed and deployed responsive interfaces on Vercel for streamlined image/video submission and screening interactions.

SMARTDONUM | Donation Management Platform | *2025*

- Developed a comprehensive donation management platform with 25+ responsive pages and multiple dashboards for managing donations, requests, and interactions between donors and beneficiaries.
- Built and integrated REST APIs with MySQL to support donation and request management, enabling seamless data flow between frontend interface and backend services.
- Designed an initiative, visually engaging UI with interactive animations, responsive layouts, and streamlined navigation to provide a clear and user-friendly experience across devices.

CERTIFICATIONS & ACHIEVEMENTS

- **National Coding Aptitude Test (NCAT) 2025 –** Ranked 4,237 among 2.1 lakh+ participants
- **IBM Developer Skills Network –** Python 101 for Data Science
- **TCS iON Career Edge –** Young Professional
- **CodeTantra –** Python Programming
